

Two Attractive Coasters for China

Maurer Söhne makes a perfect start into the New Year. The roller coaster manufacturer from Munich was able to book two new orders for China. The Shenzhen East Co. Ltd. ordered a SkyLoop and an X-Car Launch Coaster for their "Knight Valley" Park. The SkyLoop corresponds to the rides in SkyLine Park, Germany and Magic Springs, USA. The Launch Coaster is an XL 1000, the same as the one in Drievliet Familypark, Holland.

Superlative Launch Coaster is being built for Bayernpark, Germany

It will be the first Launch-Coaster in Bavaria and the first Launch Coaster within a radius of 400 Kilometers of the park. In Germany, it is the coaster with the most upside down inversions, and worldwide the Launch Coaster with the most upside down inversions with a flying start, a debut worldwide. For the first time, the braking energy will be regained and used for the next launch with the use of magnets. The guests enjoy all these highlights sitting in the multiple-awarded Maurer X-Car, the unique roller coaster vehicle without shoulder restraints, this enables complete freedom while riding the upside down elements.

Deal Dubai 2010

Once again you can meet Maurer Söhne Rides this year at the DEAL (25th- 27th of April in Dubai). We are looking forward to seeing you and we would appreciate the arrangement of appointments in advance. The highlights of this exhibition are our Racing Coaster with innovative LSM Technology and our newer developments. No matter if you need a compact installation or an individual mega-coaster, we can design a suitable solution for you.

Dubai World Trade Centre, Dubai, UAE / Booth: G5

Move- Architecture in Motion

Under the maxim "forces in motion," Maurer Söhne supports the book publication "Move – Architecture in motion;" a compilation and analysis of dynamic components and assemblies of Prof. Michael Schumacher´s architecture, Leader of the Architecture and Landscape Sciences Faculty at the Leibnitz University Hannover.

The book is available in German (ISBN 3764399856) & English (ISBN 3764399864)
